

# TALtech Bar Code ActiveX Control

## Print Perfect Bar Codes From Windows Applications.

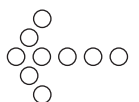

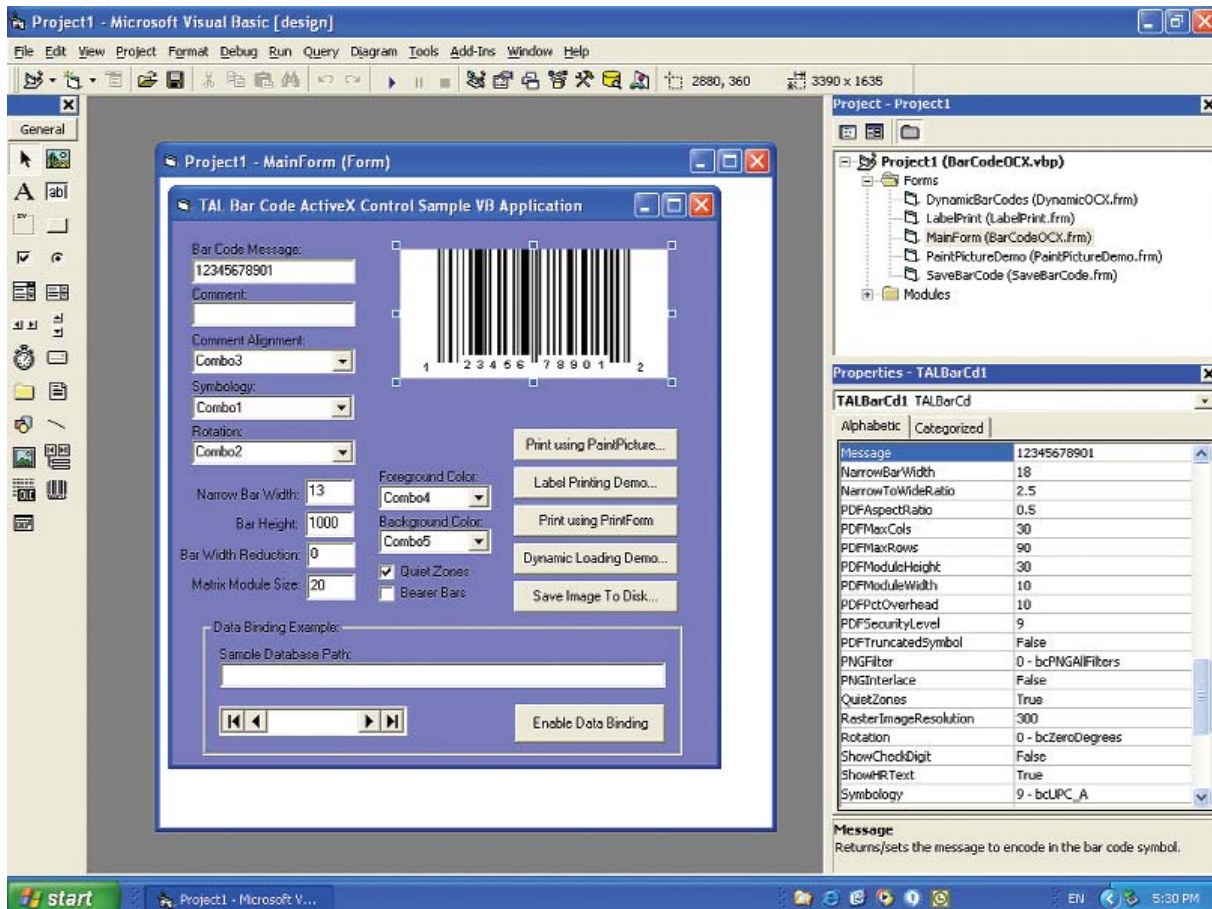

*The Bar Code ActiveX Control makes it easy to add professional quality bar code printing to any Windows applications including database reports and labels, Web pages, document tracking, postal bar coding, product packaging, and special purpose barcode labeling programs.*

The ActiveX Control is an extremely easy and powerful tool designed to work with any Windows application that supports ActiveX technology including Microsoft Access, Excel, Word, Visual Basic, C++, Internet Explorer HTML, ASP web pages, etc. Simply insert the TALtech Bar Code ActiveX Control into your application, specify your desired settings in the properties window and your bar codes will be generated automatically.

The Bar Code ActiveX Control supports all commonly used bar code symbologies and it allows complete

control over all features of each symbology including: Precise control over all bar code dimensions, full selection of foreground, background and text colors, symbol rotation in 90 degree increments, complete font selection for the human readable text above or below a bar code symbol. The ActiveX Control supports all major bar code symbologies including: Code 39, UPC, EAN, Code 128, UCC/EAN 128, PostNET, CodaBar, Bookland, HIBC and Interleaved 2 of 5 (ITF). The ActiveX PLUS version also supports the 2D symbologies PDF417, Aztec, Data Matrix, MaxiCode, and RSS-14.

In addition to being able to print perfect bar codes directly to any printer, the ActiveX PLUS version also allows you to save bar code images in any graphic file format including WMF, TIF, EPS, GIF, JPG, PNG, BMP, TGA and PCX. The ability to produce GIF, JPG and PNG

## TALtech Bar Code ActiveX Control

files make it the perfect tool for implementing "server side" bar codes on Web pages.

### Sample Applications Included

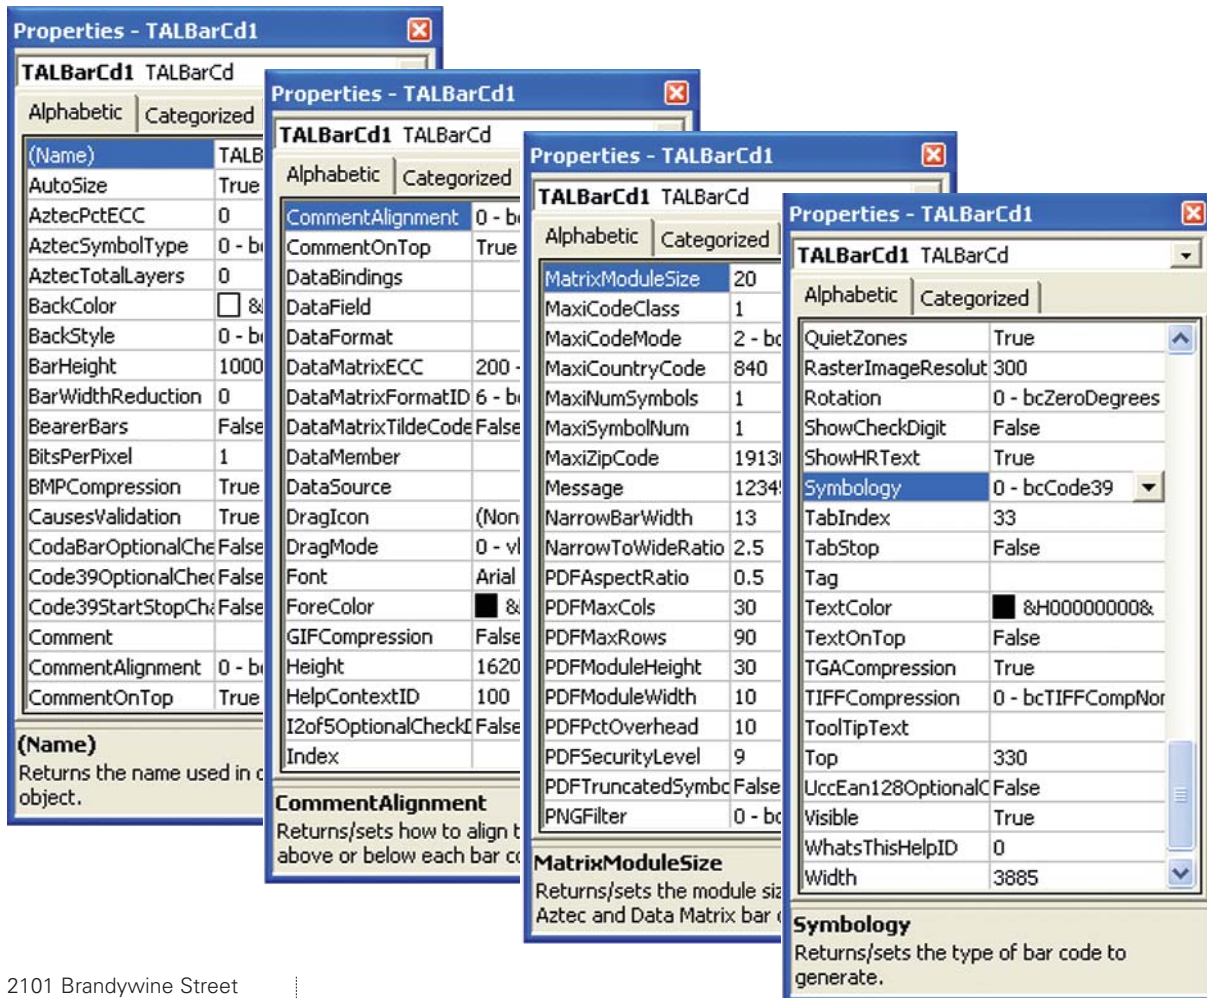

Clearly written examples for Visual Basic, Microsoft Access, C++, Excel, Word, ASP and HTML are provided with the ActiveX Control to demonstrate how to use it in each development environment. In addition, an excellent bar code tutorial is also provided to get you up to speed quickly. A complete guide to implementing "Internet based bar coding" is also included.

### Royalty-Free Distribution license.

The TALtech Bar Code ActiveX Control comes with a royalty-free distribution license.

### Fully Functional Demo

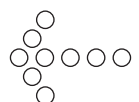

A fully functional demo version of the ActiveX Control can be downloaded from our web site at [www.TALtech.com](http://www.TALtech.com). Use the demo version to develop your entire application. When you are ready to release your application, simply replace the demo with the full working version.

## *Benefits of TALtech's Bar Code Software*

- Creation of high quality bar codes as graphics that will print perfectly on any printer.
- Easy automation of bar code production in Word, Access, VB and other Windows applications.
- Support for all the major bar code symbologies, Code 39, Code 128, UCC/EAN 128, UPC-A, UPC-E, EAN-8, EAN-13, Bookland, Interleaved 2 of 5 (ITF), MSI Plessey, Codabar, PostNET and more. B-Coder Pro, the DLLs and the Bar Code ActiveX PLUS also support 2-D symbologies PDF 417, Aztec, Data Matrix, RSS14 and more.
- Complete and accurate control over all bar code dimensions, including narrow bar width, bar height, narrow-to-wide ratios, bar width reduction and magnification factors.
- Bearer bars, supplemental messages, quiet zones, check digits, start and stop codes, bar code rotation and color selection.
- Full font selection for human readable text and additional comment lines above or below your bar codes.
- Free and unlimited lifetime technical support by phone, email and fax.

B-Coder and the ActiveX PLUS version create bar codes in most graphic file formats including WMF, EPS, TIF, GIF, JPG, PNG, BMP and more.
